# Shop App

This project is a Flutter shop application.

Features:
- Grid layout with product images
- Add items to cart with badge count
- Display total price in AppBar

Project Structure:
```
shop_app/
├── README.pdf
├── assets
│   └── images
│       ├── apple.png
│       ├── banana.png
│       ├── mango.png
│       └── orange.png
├── lib
│   └── main.dart
└── pubspec.yaml
```

Setup and Run:
1. Create a new Flutter project.
2. Copy all unzipped files into this new project's directory.
3. Open terminal in project directory.
4. Run 'flutter pub get'.
5. Run 'flutter run'.
